

Reading: Genesis 1 verses 10 to 31

In our last lesson we learn't how God (helped by the angels) got earth ready to be lived on, by making light and the plants for food, all of which would be needed by the animals and people God was going to make.

We have learn't how God made all the Plants, flowers, fruit and trees. What do you think God had to make to keep them alive?

4th DAY: So on the fourth day God made a bright light to shine on all the plants. God placed the Sun in the sky to shine upon us during the day and to make the flowers grow.  
Though when we rest, we need a softer light, and so God made the moon and the stars to give us light by night.

So by the fourth day the earth was a place full of beautiful plants and trees; by day there was the Sun, and by night there was the Moon and stars. The waves beat upon the seashores and the rivers and streams flowed along in the silent world, because there was no-one living on the earth at this stage and there was plenty of food and no-one to eat it. So what do you think God made next?

5th DAY: On the fifth day God and his angels made the fishes in the sea and the birds in the sky. Can you tell me some names of different birds or fishes?  
e.g. Pigeons, Doves, Ducks, Swans, Seagulls etc.  
Dolphins, Wales, and many different types of small fishes.

6th DAY: On the sixth day God made all the animals. God made many different kinds of animals. Can you tell me some of the animals God made? In the beginning all the animals were quite tame, they were all kind animals. And finally, the last thing that God made on the earth was man. This was the most important part of God's work. How do you think we are different from the animals? We can talk and we can think better; and we know all about God and what He wants us to do. How do you think God made man? Imagine the angels, under God's guidance, making the shape of a man out of the dust of the earth and God breathing into the shape "breath", and the man became alive, walking, running, and talking just as we can. We are kept alive by breathing.

God called the man "Adam". God brought all the animals to Adam for him to give them their names. But Adam was lonely, Why? Because he had no-one to talk to, and so God caused Adam to go into a deep sleep, and He took one of Adam's ribs and out of the rib, God made "Eve" and brought her to live with Adam to be a helper to him.

Because he had no-one to talk to, and so God caused Adam to go into a deep sleep, and He took one of Adam's ribs and out of the rib, God made "Eve" and brought her to live with Adam to be a helper to him.

On the seventh day God rested after all His work making everything that is on the earth.

Point to remember:- From lesson I that God made all things,  
and that the most important part of God's  
creation was man.
